Hi Beau, yes, I could do a brief call this week, Th or Fri. Does one of those days work better for you? Maybe about 9:30am? Thanks, David

**Subject:** Aera's CCS Project - Class VI Application Question

Hi David,

We've met virtually in several pre-application meetings between Aera and your team. I'm a geologist and now leading Aera's Class VI permitting efforts for our CCS project in the Belridge Oil Field. Our team is excited to be wrapping up technical analyses for our site characterization and starting to assemble the pieces of our Class VI application. We hope to have an application submitted in the next few months!

As we've worked through planning for application compilation, a question emerged regarding the timing of the AOR Model efforts. Would you be available for a quick call this week, either by phone or MS Teams, to discuss? I'm sure you're busy so I'm happy to work on your schedule. It should only take about 15min.

Thank you,  
Beau Gentry
